The Sun City Taxi is a short film we created using only 3D scan technology. This medium allowed us to imagine all kind of set and animations all build from scratch in order to underline the story of the film. Here is the storyline: Charles is the victim of impulsive phobias and ruminations that worry and disturb him. His life is spoilt by visions of himself committing criminal acts towards those around him. Through his omnipresent thoughts in voice-over, he questions the nature of his obsessions and impulses.

URANIBORG (working title)
Short film / 2D animation / 2024

This short animated film was developed in collaboration with Grance Benoît, professor of philosophy and specialist in the philosophy of science in the 17th century. The film explores how the Copernican revolution and cosmological reforms transformed our perception of the universe and our vision of reality.

I MET MY FRIEND JANIVAH. I KNOW HER FROM MY DAYS IN CINCINNATI. SHE LIVES AROUND HOLLYWOOD, IN A LITTLE HOUSE SHE SHARES. SHE TOLD ME THAT SHE IS DOING HER OWN LINE OF CLOTHES, BUYING THE MATERIAL FOR GOOD PRICE IN THE FASHION DISTRICT. WE WENT OUT, AND SHE TOLD ME TO BE CAREFUL BECAUSE THERE IS A LOT OF PEOPLE SHITTING ON THE SIDEWALK. I REALLY THOUGHT HOLLYWOOD WAS MORE FANCY.

BEHIND THE HOLLYWOOD SIGN, THAT'S A WALK THROUGH THE HILLS, WHERE SIRENS CAN BE HEARD.
